When Sheriff Porter arrived here several days ago he made a requisition on the Mexican government, through the United States legation, for the extradition of Mr. Thompson. The arrest of Mr. Thompson was at once effected, but he is now free, the government refusing the requisition.

MORE INTERNATIONAL TROUBLE

The French Marines Are Waylaid by Brazilian Brigadiers.

Paris, May 27.—The governor of French Guiana cables to the French government that as the consequence of Brazilian freebooters capturing a French settler named Trajane and robbing other Frenchmen on the frontier territory between French Guiana and Brazil the governor sent a dispatch boat with marines to restore order. M. Lunier, captain of the marines, with only two men, took a flag of truce to demand the surrender of Trajane. Cabral, the leader of the freebooters, treacherously fired upon M. Lunier. A fierce conflict ensued, the marines coming to the assistance of the Frenchmen. In the two hours' fighting Cabral lost over sixty killed, including himself, and the French five killed, including Lunier, and twenty wounded. It is feared this encounter will lead to trouble with Brazil, the scene of the conflict being in debatable territory between the two countries.

A feature of the deal is reported to be the sale of the Beaver Falls plant to the Consolidated Steel and Wire company. It is claimed all the plants in the country will be in the combine except the Philadelphia and Joliet mills which are operated by Broecker & Co. of Pittsburg under lease. Manufacturers of wire nails have refused to quote prices for delivery after June 1. It is also stated on good authority that the cut nail manufacturers are trying to form a combination.

ST. LOUIS READY FOR WORK.

Big American Liner Starts on Her Ocean Test Trip.

Philadelphia, May 27.—At 11:45 to-day the pioneer of the modern American merchant marines, the giant steamship St. Louis, cast off her hawsers at Cramps' shipyard and started down the Delaware river on her initial ocean voyage. As the big steamer pointed her nose down the stream she was greeted by all kinds of craft in the river, the noise being simply deafening. This was continued until the St. Louis had passed League island, the extreme lower end of the city.

The St. Louis is the largest vessel that has ever sailed down the Delaware river. She is in command of Capt. Wm. C. Randle, and the crew of 400 men who sailed away with her to-day will take the big vessel on her initial voyage across the Atlantic. The St. Louis will anchor to-night at Reedy island. To-morrow morning between 2 and 4 o'clock she will weigh anchor and run down to the capes where her compasses will be adjusted and the trial trip will be on. It is expected that she will remain at sea from four to five days and then go to New York.

The contract for the St. Louis calls for a speed of twenty knots an hour, but it is thought that she will easily surpass this speed.

TO REMOVE THE BAN.

Effort to Be Made to Reconsider the Boycott of Union Seminary.

Pittsburg, Pa., May 27.—The ninth day's session of the 107th general assembly attracted more than the ordinary number of commissioners for this late day. The word had been passed to the conservative leaders that the liberals were moving toward the repeal of their pet measure, the boycotting of the students of Union seminary. To this end Moderator Booth has been besieged by some of the influential friends of the seminary, and it is understood the plan is to reconsider the vote of Wednesday which placed the ban upon that institution.

The report of the standing committee on theological seminaries was read to-day by Dr. F. C. Montfort of Cincinnati.

William I. McEwen of Pittsburg was announced as the chairman of the \$1,000,000 memorial fund committee.

An overtone calling attention to the "flagrant violation of the Sabbath by congress," on the last Sunday of its session and asking for an expression of condemnation by the general assembly having been presented, an answer in accordance with the request was reported and adopted by vote of the assembly. The answer carried with it a recommendation for a petition to congress, praying against a repetition of this act.

HENEY IS SLIPPERY.

Man Who Looted the Carson Mint Is Difficult to Capture.

San Francisco, May 27.—The secret service agents throughout the United States are on the lookout for James H. Heney, charged to be in the band that looted the Carson mint by carrying away \$50,000 of gold from the melting and refining department.

The accusation of the officials is that Heney got about \$50,000 of the total amount stolen. He was assistant to the melter and refiner, Jones, who was arrested several months ago for complicity in the crime. After leaving Nevada Heney went to Butte, Mont., and then he visited many mining towns, among them the important camps in Colorado. He was recently heard of at a small camp in Colorado called Kokomo, where he was visiting a friend named McCasky. The government officials surrounded the cabin where Heney was supposed to be hiding. He had learned of their approach and had departed. He was last heard of at Pueblo.

For Accurate Crop Reports.

Washington, May 27.—Secretary Morton's latest plan for securing absolutely accurate figures as to the yield of cereals in this country is announced as follows:

He suggests that the various states license all thrashers of grain and shellers of corn at a nominal sum and require them under oath to return the number of bushels of grain thrashed by them and the number of bushels of corn shelled. In this way, he believes, a return would be reached that could not be impeached. This plan, would of course require the legislative co-operation of all the states in the union.

Omaha, Neb., May 27.—Gen. Coppinger, commander of the department of the Platte, denies that he has received any orders to send troops to the Omaha and Winnebago reservations, as requested by Capt. Beck, the agent. There is every indication, however, that if the orders have not been received they are anticipated, for the troops at Fort Omaha are undoubtedly held in readiness to leave on short notice. Everything is quiet on the reservation and undoubtedly will remain so until efforts are made to evict the settlers who hold leases from the Flournoy company. Just when this move will be made Capt. Beck and those who know decline to state.

San Antonio Bank Fails.

San Antonio, Tex., May 27.—The Fifth National bank of this city went into voluntary liquidation Saturday. Arrangements have been made with the Alamo bank to pay all depositors. The bank has not been making money for some time, and the present action of the directors is voluntary. Saturday George Dullin filed a deed of trust in thirty-three pieces of real estate in this county to secure the payment of \$101,600. Later a second mortgage on the same property was filed in favor of the Alamo National bank for \$118,831.13. At 7 o'clock last night George Dullin executed a bill of sale of the contents of his grocery store. The Fifth National's suspension precipitated both failures.

Consequently there will be no occasion for British interference in the case. The government has made no movement toward appointing a successor to Mr. Thurston.

Put Their Trust in a Woman.

Leadville, Colo., May 27.—The two men arrested here Friday are the fellows who robbed the Wells-Fargo express agent near Cripple Creek last April and secured \$16,000. One of the prisoners is the notorious "Kid Gray," and it was he who fractured the skull of the express messenger at the time of the robbery. Since their arrival here a week ago they never appeared in the daytime, and always had their revolvers ready. They were betrayed by a woman and captured while asleep.

His fortune is estimated at between \$25,000,000 and \$30,000,000.

A SOUTH AMERICAN ALLIANCE

Republics Unite to Protect Themselves From European Forces.

Washington, May 27.—New treaties of far-reaching importance have recently been made between Nicaragua and Honduras, and official copies have been received in Washington. The treaties have been under negotiation for some time and were finally put into effect by proclamation the 15th of last month. They are the first practical step toward the formation of a Central American nation out of the several small republics—Nicaragua, Honduras, Guatemala, Salvador and Costa Rica.

The first treaty forms a defensive alliance in case of foreign war and offensive alliance against common enemies, and it obligates commercial frontiers so that foreign goods once admitted to one country are free to enter the other. An express provision is made against the possibility of war between the countries by an article requiring differences to be adjusted by arbitration by some government on the American continent. Article 53 is the one looking to the union in a single nation, and is as follows:

"The high contracting parties solemnly declare they cannot and will not consider as foreign the other Central American countries, and they will labor constantly to maintain the family bonds and the greatest cordiality in their relations, making a common cause with them in case of war or difficulties with foreign countries, and mediating in their international relations. To this end the present treaty will be submitted to their consideration, inviting them to subscribe to it as a common contract American treaty until the arrival of the day when they shall be incorporated in a single nation."

CAPTURE A MAIL ROBBER.

Federal Officials Make an Important Arrest at St. Louis, Mo.

St. Joseph, Mo., May 27.—Since January 1 letters containing money destined to points along the Union Pacific railway have systematically disappeared, and although the government had its shrewdest detectives at work on the case they never discovered the guilty man until Saturday, when suspicion was directed to Samuel F. Holliday, chief of the letter force of the St. Joe office. Shortly before daylight yesterday morning Inspector George Sutton went to his house and placed him under arrest. In his clothing was found a part of the money stolen from letters the day before. Holliday confessed, and said he had robbed the mails since January in order to support an extravagant wife. His method was to steal money letters, open them, and after taking out part of the contents resell them and send them to their destination. He has secured several thousand dollars, and the department has spent over \$3,000 in trying to capture him.

GOD AND COUNTRY MUST SHARE ALIKE

PATRIOTISM IS A VIRTUE, BUT
IT CAN'T SAVE SOULS.

Dr. Hodge, in His Sermon to the G. A. R. and W. R. C. Yesterday Morning, Did Not Depreciate Love of Country, But Advocated the Love of God in Addition, as Necessary.

While patriotism is one of humanity's best virtues, it won't save a man's soul.

Dr. Hodge didn't tell it to his large audience in quite these words, when he preached to the Grand Army of the Republic and the Woman's Relief Corps at the Baptist church yesterday morning; but that was the gist of a very interesting sermon on "The Limitations of Patriotism." A goodly audience was present, and the veterans and the members of the W. R. C. had the place of honor in the body of the

DR. M. G. HODGE.

church. Music was furnished by a male quartette composed of E. O. Kimberley, E. E. Van Pool, S. B. Lewis and Archie Crawford, and several special numbers of a patriotic order were rendered. Dr. Hodge took for his text the eleventh chapter and forty-second verse of St. Luke:

"But woe unto you Pharisees! for ye tithe mint and rue and all manner of herbs, and pass over judgment and the love of God; these ought ye to have done, and not to leave the other undone."

It was along that line that Dr. Hodge made his plea. He described the Jews as a patriotic nation, who were ready at all times to make great sacrifices for their institutions, their countries and their laws; and told of the privations endured and the bravery shown before they achieved their independence. Even their songs echoed their patriotism and inspired the loyal hearts, he continued.

Patriotism is a virtue. "It is right to give all due praise to the virtue of patriotism, for it is a virtue," he said and in continuing he stated that the manifestations might vary but the inspiration therefore remained the same. Some of the ways in which patriotism was shown were then entertainingly outlined and he insisted that any country was ungrateful that did not recognize the services of its soldiers.

Patriotism could not complete the circle of human virtues he said and by way of illustration he told of the stately oak tree that was in itself a thing of beauty and utility, yet it could not represent a whole landscape for the hills, the rills and the plains were necessary. Neither could one star make a constellation and this was true of religion as well.

"A man may be patriotic," he said "but is he honest? Can you swap horses with him? Is he truthful? Is he conscientious? He may be a good soldier, but is he a good husband; a good father; and a good neighbor? We may be patriotic as far as the country is concerned, but still neglect the individual part of it, when we should bring that patriotism home."

To illustrate this point he told of the stranger whom the robbers left bleeding beside the road. Two men found it convenient to take the other pathway, but the third, the good Samaritan, cared for the stranger and ministered to his wants. Another apt illustration was that of the author who was engaged in writing a book on the subject of doing good and was so busy in that work, that he could not leave it for a few minutes to help extinguish the fire in the home of the poor widow who was his neighbor. Patriotism, he continued, could not take the place of undivided benevolence and it could not compensate for the lack of loyalty to God.

Should Divide His Loyalty.

Men, he continued, should divide their loyalty between their country and their God, for the love of country could not take the place of faith. The Jews while they said they would die for their cause

and their nation, crucified Christ. Bishop Newman was with General Grant when he died and he said that the great general committed his soul with the humility of a child, to God. He did not say "I received General Lee's sword," or "I took Vicksburg," or "I commanded the army of the Potomac," but he did say: "I die in the faith of Jesus Christ."

Being a good soldier, Dr. Hodge continued, after he referred to the soldier's claims that the law set aside for the men who fought for their country, would get the veteran one of those claims and if his record was good and he did not desire to take up land, his knock admitted him to the soldiers home in which all the comforts were his, but would his knock on the same platform, open the gates of heaven? He did not, he said in closing, depreciate one hair's breath or discount in the remotest fraction, the value of patriotism but while he congratulated those who had shown that virtue on their possessing it, yet he held that they should be true to their God as well as their country and in doing "these ought ye to have done, not to leave the other undone."

A GIRL'S CLOSE CALL IN A BLAZING HOUSE

ANNIE RAMBOLT, OF AVON,
NARROWLY ESCAPES.

Went Back To Rescue Some Family Heirlooms and Was Cut Off by Sheets of Flame—Injuries Were Thought To Be Fatal at First, But She Is Now Better.

Miss Annie Rambolt came very near being burned to death when her mother's farm house eleven miles west of Beloit in the town of Avon was destroyed by fire. Miss Rambolt was getting tea and was busy in the kitchen when her mother saw smoke pouring from the roof. Mrs. Rambolt's sons were not about the place, George Winter went on the roof and tried to get at the fire, but in a few moments the flames broke out and it was seen that the entire structure was doomed. All then gave their attention to saving the household effects.

While the fire was raging Miss Anna bethought her of some belongings of her father lately deceased, that were in a trunk in the second story, and heedless of personal danger she rushed through the hissing flames and blinding smoke and threw the big trunk out of a window.

Then half blinded and choking with the heat and smoke she tried to get downstairs, but found the hall a sheet of flame. She sprang through the fire and fell the entire length of the stairs, over ten feet. Happily her brother had come into the house to save a gun, and hearing her fall, with great difficulty he approached the place where he expected to find her, but the young lady had fainted, and she was in a dazed condition, and she rushed through the blazing house into the kitchen which was all afire.

Her sister Helen saw her and called to her mother who rushed to daughter's rescue, and finally brought her out. The young lady was badly burned on the face and hands and has a bad cut on one wrist. At first it was feared that she would die but at last accounts she was better. The loss was \$1,500.

A Twice Told Tale.

Is a miller's tale, the tale of the grist, as it were. Most people are satisfied with once telling; some millers tell twice and they are not satisfied.

Let us return to our "muttons" altho our tale is not the tail of a sheep.

We are making, these days, telling sales, how can we help it when we tell such prices.

We have today one nicely located six room house on large lot for \$950. We have another still better located and in good repair, cistern, fine well and very large lot for \$1,200.

We are about to complete an entirely new house very centrally located with cistern, well with force pump and is a complete home for \$1,700.

We have almost three acres of land, right in the heart of fine improvements now going on, fair house, good barn, good well of water, cistern, fruit trees and shade, cheap at \$2,000, but we don't ask but \$1,500 and that is only \$100 more than we asked last week. New developments in the immediate vicinity would warrant us in asking \$250 more than last week's price.

Drive up to corner of Wheeler and Grove streets and notice our beautiful improvements there. It will remind you of the busiest day, three years ago in Riverview Park. We will build for you up there just such a house as you want and make easy terms.

East Riverview Park is coming to the front. Note the new house and barn corner of Cottage Place and Vista avenue, north. You can't find as good a one in this city for \$2,000. You can have this one for \$1,750. It is bargained for by a Chicago man but we can build him another.

Lots in East Riverview Park are "dog cheap" at \$500, but we only ask \$400 and give you free rides in our wagonette for a year besides. If you locate in East Riverview you will be right in the line of the best improvements in the city.

We have got a pair of lots centrally located for \$650 for the two. There are no others so central in Janesville for less than \$450 each.

In fact, we have gotten the earth, or a good part on of it, the best portion. Yours very truly,
Geo. L. & Sarah H. Carrington.

SCORES OF CYCLERS RODE IN ONE BUNCH

SHORT PARADE OF VISITING
WHEELMEN YESTERDAY.

Delegations of the Rockford and Beloit Clubs Were the Guests of the Arrow Club, Who Went to the Line City To Meet Them—Notes for the Wheel Lovers.

Not less than fifty wheelmen paraded Main street in a bunch yesterday afternoon and then the Rockford and Beloit clubs started out for a run home. For the past three weeks the members of the Arrow Cycling club have been making arrangements for the reception of the Beloit and Forest City wheelmen and when the day dawned yesterday morning, and thick clouds began to make their appearance there was many a heavy heart among the cycle lovers. Twenty-two of the boys had promised to take the run to Beloit for the purpose of escorting the Rockford and Beloit clubs into the city and the start was made at the corner of South Bluff and South Second streets at 8:20 o'clock. Fifteen were in line and the route taken was the "Prairie road." The wind blew a gale, but being in their favor going down, the fourteen miles was made in fifty minutes. While going down Main street at Beloit a number of tires gave out, but were quickly repaired through the kindness of Frank VanWort and S. Reitter of Beloit, two old time lovers of the wheel.

Rockford Men Arrive.

Eleven members of the Rockford club pulled into the Line City at 11:45 in command of Captain C. H. Keyes, who is one of the Forest City's best riders, having won a number of races about the country. The start for Janesville was made at the Goodwin house corner at 12:10 with six members of the Beloit Cycling club, making thirty-two men in line. The "prairie road" was selected for the return trip, and although the wind blew a hurricane along the prairie, the trip was made in two and a half hours. Very few of the riders came into the city together for some were two miles behind the leaders. Two of the Rockford boys, who were a little weak, stopped at the farm of I. Stafford and partook of bread and milk, and J. Sweet of this city, had his Sunday dinner at a farm house and arrived in the city at the unheard of time of four hours. Arrangements had been made with Landlord Miller, of the Myers house, for thirty-five, and an elaborate dinner was served, after which the clubs were given the freedom of the club house, and a rousing reception followed. The visiting clubs left the city at 4:45 for the return trip.

The Men Who Rode

The Rockford men were:
C. H. Keyes, W. H. Utter,
E. W. Linden, Z. Z. Miller,
J. Camlin, J. G. De Long,
F. E. Sanner, G. Hickley,
J. Hickley, F. W. Huber,
J. Larkin, E. A. Camlin.

The Beloit delegation was composed of:
F. VanWort, S. Reitter,
W. A. Hendley, L. Corcoran,
F. Moore, J. A. Keith.

Those who made the trip from this city were:
F. E. Randall, O. Sutherland,
T. M. Nolan, W. M. Pennig,
F. E. Sanner, J. G. De Long,
W. N. Counsell, W. A. Buob,
W. Taylor, W. W. Watt,
C. Ellis, F. P. King,
C. E. Kneff, J. S. Sweet,
E. O. Smith.

SPOKES FROM THE WHEEL.

THE Y. M. C. A. cycling club is constantly growing, and the prospect is bright for an inter-national league union of all associations in connection with the gymnasium work, which is fast taking front rank in all large cities throughout the country. At the inter-national convention held in Springfield, Mass., one week ago, this subject was presented and met the approval of the seven hundred delegates present, and there is no reason why, with the educated and trained physical men for directors, that this should not be a successful adjunct to the summer work of the association in connection with their field days.

A new piano has been secured for the Arrow Cyclers' club house, while E. D. Miller proprietor of the Myers has kindly donated a folding writing desk, which was received with many thanks by the boys.

G. WALLACE NOTT, who is studying medicine at the Rush Medical college at Chicago, was in the city on his wheel. He is on his way to his home in Lodi, where he will spend his summer vacation.

On the return trip to Beloit yesterday, Captain C. H. Keyes, of the Rockford's broke his tire wheel four miles out, and had the pleasure of hiring a farmer to drive him to the Line City.

Two young ladies in the city have the bicycle fever so badly that they prance about the neighborhood nightly, attired in men's clothes, experimenting with a borrowed wheel.

The first tandem this city has seen, is now owned by Ross and George King. It is said that faster time can be made on the tandem, and a breaking of the mile record is looked for.

A NUMBER of the fair sex may be seen moonlight nights taking their first lesson on the wheel on South Bluff street between Oakland avenue and South Third street.

ARRANGEMENTS are now being made by the Arrow Cycling club for a run to Rockford next Sunday if the weather permits.

W. M. PENNING, one of the Bower City's promising riders has just purchased a new seventeen pound racer, which is the lightest wheel in the city.

THE HOTEL CONTRACT IS LET

Krueger and Berg Will Erect O. E. Smith's New Building.

Contractors have been figuring on plans for the new hotel which will occupy the present location of the Badger State House at the corner of Academy and Wall streets and the job has been let to A. C. Berg who will do the mason work, and A. C. Krueger who will do the carpenter work. Both are well known Janesville workmen and they will commence soon, removing the present structure and the building of the three-story brick edifice shown in Mr. Smith's plan.

HORSE'S FOOT NEARLY CUT OFF.

Wagon Tongue Fell Down and Inflicted Injuries That Couldn't Be Healed.

A son of A. Brunsdold of Orfordville, was driving home when the tongue of the wagon fell as he was crossing the railroad track, and caught one of the horses on the hoof, inflicting such a severe injury that it was thought best to kill the animal.

JAPAN COPES WITH A BELOIT CROOK

CELESTIAL EMPIRE IS BURNED WITH CARE.

Now That They Have Gotten the War with China Off Their Hands, They Are Called Upon To Compete with a Swindler Who Said He Came From the Line City.

An adverse fate seems to be in control of the affairs of the slant-eyed celestials in that peppery little country called Japan, for now that they are just recovering from their war with China, a new complication appears and they are expected to compete with a crook from Beloit. George Appleby, the chief of the Beloit police department, and brother of Sheriff Appleby, has received the following letter from Yokohama:

CHIEF OF POLICE, BELOIT, WIS.
DEAR SIR: A party who recently visited Japan and while here made arrangements to enter into business at Yokohama, gives the address of Leo Edwards, No. 620 Hackett street, Beloit, Wis. I beg to ask you if you know anything of him. He came here with a scheme to import American lager beer in casks and bottle it here to compete with the local breweries. He claimed to be the representative of the Pabst Brewing Company at Milwaukee, representing that he was personally known to them and that he would consign to him all the beer that he could handle in Japan, or, in short, would give him a line of credit equal to three carloads of their beer to handle on commission. This statement, like all others he made here, has proven to be false, as the Pabst Brewing Co., who have been heard from, disclaim all connection with the man, and further state that his scheme is wholly impracticable. I only add that I am one among the number of Americans here who have been imposed upon and deeply wronged by this man. The American Colony here took him into their confidence and treated him like a gentleman which makes the betrayal of such confidence the more to his discredit. A full chapter of his escapade in Japan will be furnished you later and in the meantime may I ask if you will kindly give me what information you have of him and his family connection. I regret that I am unable to enclose you stamps for return postage, as I have no U. S. postage stamps and cannot obtain them here. I shall be very pleased to have an early reply from you. Very truly yours, Frank Winfield, No. 1400 Nakamura, Yokohama.

Marshal Appleby could not locate the man wanted and there is no number as that given as Edwards' residence.

MRS. HARTLEY SUES FOR DIVORCE

Sequel of the Elopement of Mrs. V. D. L. Mudge with the Photographer.

Janesville people will remember sprightly Mrs. V. D. L. Mudge, the wife of the Chicago attorney, who danced and sang so successfully during her stay in Janesville some time ago, as well as her elopement from Chicago later on. The second chapter of the latter difficulty came yesterday, when the Chicago Tribune published the following: "A divorce suit was begun in the superior court yesterday as a sequel to the alleged elopement last summer of Charles F. Hartley and M'Lisa Mudge, the wife of V. D. L. Mudge, an attorney. The complainant in the case is Belle Gertrude Hartley."

OUR ABILITY

BRIEF BITS OF LOCAL NEWS

"You can fool some of the people all the time, you can fool all the people part of the time." There never was a grander saying than this entered, and Old Abe knew what he was saying. It applies to the shoe business in Janesville exactly. It took the people just one week to learn, by experience, where the best shoes are to be had and at 50 cents on the dollar. We are exempt from all competition and its useless for any one to try to push us, can't do it. No better shoes can be had than we are selling for they are not made and no one else in this town can sell for 50 cents on the dollar. Becker & Woodruff.

We understand that long ago a certain gentleman Mr. Annias, last name not given, was the greatest fabricator of his day. We sincerely believe that some of his descendants are living in our city. Mr. Annias could not hold a candle to some of the stuff floating around town today told as the truth. We are in a position to fulfill every statement we make. We have never told you a fish story in our history and we don't intend to, but when it comes to selling a regular \$5 line of shoes for \$3, you can always find us a full team and a horse to let. Brown Bros. & Lincoln.

Did you ever feel that you wished the day was much longer, that you would like to do more than you were doing? That is just the feeling we had Saturday night. Eleven o'clock came and our store full of customers. Twelve o'clock came and still some there. It seemed impossible to wait on all the people. We never had such a day, biggest yet. The people are just commencing to compare shoes, and now we will have our great rush, for there are no shoes in the town as good as we are selling. Becker & Woodruff.

No jugglery of facts and figures; nothing done to make you think that the moon was a huge cheese, and that you and we would eat it some day. We show you the really only complete line of shoes now in our city, and we name you a figure that will surely convince the most credulous that we have the best goods for less money than any house in the country. We are bound to maintain our reputation as reliable dealers. Brown Bros. & Lincoln.

It is wonderful the distance people come to get fine shoes we are selling at 50 cents on the dollar. From all over the state, and from other states the fact that we are selling shoes at half price has brought hundreds of dollars' worth of business to Janesville and we get the lion's share of it all. Becker & Woodruff.

Did you ever see such a time on shoes? Clothing is just as bad. We are selling at the greatest sacrifice prices ever known, but we are compelled to dispose of the goods some way, and the only honorable way we know is to cut the price in two and that we've done. Frank Baack.

WITHIN the past two months, or since we opened this great 50 cent on the dollar sale, this town has made an excellent reputation as a shoe market. People who were never in the town before have been attracted here and all because we are selling the best makes of shoes in the world at 50 cents on the dollar. Becker & Woodruff.

WHEN a stock of the finest shoes on earth stands a person but 30 cents on the dollar, they surely can sell for 50 cents on the dollar. That's just what we are doing, and oh! but we are kept busy. Becker & Woodruff.

No fire stock, bankrupt stock or any other stock of clothing was ever offered in the town as cheap as we are offering ours. We must sell \$25,000 worth and the prices have been made so they talk out loud. Frank Baack.

THAT \$1000 beer, warranted strictly pure malt and hops, can be found only at M. M. Farley's, No. 10 Midway, by the case. Claret, Reisling, Ports, and all California wines, at \$1.25 per gallon.

We have the handsomest line of boy's suits that ever graced a counter. We purchased too many but next week will sell 150, keep your eye this way. Will tell you how very soon. Frank Baack.

SOME of the coal that is sold at the low price has been on the docks for the past ten years. When you want fresh coal look at ours. Janesville Coal Co.

DON'T think we'd do it, but couldn't help it. Too many goods. Too big a stock. \$25,000 worth must be disposed of before fall. We will cut any price quoted. Just as we sell. Frank Baack.

GREAT sale of Bibles and Sunday school libraries for the next thirty days at Sutherland's bookstore.

Just examine our coal! and compare it with that with whiskers on, and see the difference in quality. Janesville Coal Co.

If any mother in the city wants to buy her boy a suit, let her step in here; will sell at half price, and have something that will please the boys. Frank Baack.

DON'T buy coal with whiskers on. When you want fresh-mined coal come and see us. Janesville Coal Co.

FLAG SHOULD BE AT HALF MAST

Commander Hoard Rules as to Memorial Day Form of Display.

"How should the flag be displayed on Memorial day?"

That question had been asked half a dozen of times lately, and nobody seemed to know. Half of the old soldiers you enquired of would say "half-mast" and the other half "at the top of the staff."

Then Commander Hoard was appealed to over the telephone. At first he ruled that Memorial day was not a day of mourning, but a day of decoration, perhaps, and he thought the matter of displaying flags had not been fully settled by the national encampment, therefore he gave it as his opinion that flags should be displayed at full mast. Later in the evening, however, authority was found for a change. The national encampment, in June 1878, passed a resolution, directing "that all flags hoisted on Memorial day be at half-mast." In view of this resolution, Commander Hoard said, all flags must be displayed at half-mast on Thursday.

"Half-mast," appears to be misunderstood by many people, hence flags are seen occupying different positions on the staff. Some run the flag up to the center, others higher, others lower. It is claimed that the flag should be raised at sunrise, first by running it up at full mast, then dropping it down the width of the flag, where it will remain until sundown, when it is to be again hoisted at full mast, and then dropped down.

SALOONIST AMES IS ARRESTED.

Belvidere Officers Want Him For Alleged Illegal Liquor Selling.

Harry Ames, who used to run a saloon here, but who is now in the same business in Beloit, was arrested Saturday by Marshal Appleby, on a warrant issued by Governor Upham, at the request of the Boone county, Ill., officers, who have a requisition for Ames. The charge is that Ames was indicted by a Boone county grand jury for selling liquor to a confirmed drunkard while a saloon keeper at Belvidere, and they want him for trial. Mr. Ames was locked up, but expects to get bail. It is said that other charges are made against him at Belvidere.

Beloit, May 27.—Ames was turned over to the sheriff of Boone county, Ill., this afternoon, and taken to Belvidere. There are seventeen indictments and thirty counts pending against him.

WILL HAVE CHARGE OF A BIG KEELEY INSTITUTE.

Within the Next Two Weeks He Will Be Ready To Leave For His New Home in the West, and Offers His Homestead, Etc., For Sale—General City News.

DR. J. W. ST. JOHN will not remain in Janesville, but will leave, as soon as he can make the necessary arrangements, for Salt Lake City, Utah, where he will take charge of the largest Keeley Institute in the west. Ever since his return to this city from Excelsior Springs, the doctor has been in constant communication with Dr. Leslie E. Keeley of Dwight, Ill., as to his future plans. The doctor's good work during his stay at Excelsior Springs has been fully appreciated by the Keeley management. Three times he has been sent for to come to Dwight, and upon his arrival had flattering offers made him to take charge of a number of institutions in different parts of this country, all of which he refused. Now, however, his plans for the future have been fully agreed upon, and the doctor and his wife will move within the next two weeks to Salt Lake City, where he will establish one of the largest Keeley institutions in that part of the country. He will have full control of the concern, at a handsome salary. He now offers his home for sale, and the future will find him a permanent resident of the far west. The many friends of the doctor and his wife will regret his taking this step, but will unite in hoping that their new home will be surrounded with good fortune and fraught with happiness.

MILL STILL SILENT AND MEN ARE FIRM

STRIKE IS AS FAR FROM AN END AS EVER.

Little Chance For a Change in the Situation, and Both Sides Seem to Adhere Strictly to the "Original Proposition"—Another Meeting To Be Held on Wednesday Evening.

The cotton factory strikers did not return to work this morning, and probably there will be a number of very warm and perhaps some cold days intervening between now and the day they pass into the factories with their dinner pails.

The employees held an enthusiastic and quite harmonious meeting in Central Labor hall on Saturday evening. The meeting was called for the purpose of hearing the report of the committee appointed to wait upon the factory managers. The committee reported, substantially the same as published in Friday's Gazette, that all could return under the wages in force at the time of the strike, or they might adopt a ten hour system instead of eleven, the employees to be paid for ten hours work on the same basis of the eleven hour system. The propositions were rejected, and the demand for the 10 per cent advance in wages was insisted upon.

A special committee consisting of Miss Maggie Holleran and Nellie Holten, and Messrs. Booth, Fish and Cherry was appointed to distribute funds among the needy, and a vote of thanks was tendered the committee appointed to solicit funds and also to John McFeigue, president of the labor union, for valuable aid rendered. The meeting then adjourned until Wednesday evening.

That employees will insist on the 10 per cent advance as a condition of their going to work, was confirmed by a number of the employees who attended the meeting Saturday evening, and it looks as though it would be insisted on to the very last. The directors of the factories, however, are not in the least alarmed, and appear to be satisfied to let the strikers have plenty of time to consider the matter involved.

"We are in no hurry to start the factories," said one of the directors to day. "We are about as well off with the factories locked up as we are with the looms running at full force. There is no money in it. I guess the employees will see this after awhile."

One of the committee remarked to-day that the hands might go back if the managers would adopt the ten hour system without a corresponding reduction, but that a reduction, meant a cut of 20 per cent. on piece hands instead of 10 per cent., which they could not stand. The indications are that the strikers will remain out for some time, but the meeting to be held on Wednesday evening may develop something new.

A BAD FIRE FOUND BY A MERE CHANCE

NARROWEST ESCAPE IN YEARS FOR A BIG BLAZE.

While the Department Were Rushing For the Five Points, a Smouldering Blaze Was Eating Its Way to the Whisky Barrels in E. J. McCue's Saloon—Three Alarms Sent In.

While Janesville people, or most of them at least, slumbered peacefully in their beds at 1:15 Sunday morning the fire department was coping with what narrowly escaped being the worst fire that has raged in the town for many a year.

Three alarms were turned in, in all, and had E. B. Heimstreet turned to the right instead of to the left when responding to the first one, there would have been work for contractors, insurance men and probably physicians this morning.

It was a busy time for the Knights of the hose as two incendiary fires at one time and a mile apart was something the department was not looking for.

Therefore, at sixteen minutes to 1 o'clock Sunday morning, when the fire bell and fire stations indicators responded to a pull of box 515, located at the "five points," it was no wonder that the firemen at the east side station rushed passed a smouldering fire within a few doors of their station, and passed on to the box from which that alarm came, thus unknowingly neglecting a dangerous blaze for one that was less serious.

The alarm from box 515 was caused by a fire in the little empty frame dwelling of Thomas Dalton 103 Gold street, which had recently been occupied by Bernard Cummings. Hose companies 1 and 2, with the hook and ladder truck responded to this call.

Saw Smoke at McCue's.

While passing across Main street on Milwaukee, on his way to Gold street, Chief Spencer noticed the heavy volume of smoke pouring out of the building occupied by E. J. McCue, and he pulled up. Word was at once sent to Assistant Chief Osgood to return a hose company and if possible the hook and ladder truck to North Main street as a fire was in progress in McCue's basement, and with but a few men to help, lines of hose were laid, and a stream of water put upon the fire. In the meantime the Fire Patrol company held the fire in check, giving the men time to bring hose from the station, uncoil and couple them in line. The building was full of suffocating smoke, and it was worth a man's life to get into it. However, the fire was extinguished, with but little loss and that was principally by smoke.

Assistant Chief Osgood, in responding to the alarm from box 515 heard the second alarm, from box 28, and after arriving at the Gold street fire, finding that neither Chief Spencer nor the patrol had arrived, concluded that there must be another fire, and at once ordered the hook and ladder company and east side company to return.

It Was a Close Call.

The fire was in the basement and was feeding on a barrel of rubbish that made a dense and nauseating smoke. It was rather hard to locate and when the firemen did trace it down to its origin, they found something that made them think of what might have been. But a few feet distant from the blaze were half a dozen casks of liquor, which had they exploded, would have made short work of the handful of men who were groping about in the suffocating smoke. It was confined, however, to the place of its origin, although it had gained considerable headway, working in the ceiling, and would, in a very few minutes, had it not been discovered, been through the floor, igniting the barrels of whisky. It was clearly evident that the blaze was the work of an incendiary. E. B. Heimstreet noticed the smoke coming from the grating in front of the saloon as he turned to go to the engine house and told Patrol Driver Barriage. Had he gone the other way when he came down stairs, and had not Chief Spencer noticed the smoke in the rear of the building, the blaze in a few minutes would have been the worst in years.

Mr. Dalton's House Destroyed.

Mr. Dalton's house was totally destroyed. In fact it was about gone before an alarm was turned in, that section of the city being brilliantly illuminated while the department was making the run to it.

"The roof had fallen in when I arrived," said Assistant Chief Osgood, "and the whole building was in flames."

The building had been vacated but a few days, and it was clearly evident that the fire was the work of an incendiary. After the department had squelched both fires and the men had just gotten nicely into bed again, another alarm came in. It was from box 56 and was turned in when the smouldering ruins of the Dalton house again flamed up.

Basement Is Historic.

The basement is one of the old landmarks of Janesville. Years ago, when the building was known as the Bates' block, it contained the only public hall in the city, the hall being on the second floor. Here Langrishe & Atwater's theatre company, with John Dillon as a property boy, played for weeks at a time. On the first floor Charles Door conducted a saloon, and in the basement was the bowling. This was way back in the village days, but the bowling alley was kept running for some years, the ruins of

the old alleys being still visible in the basement.

The Dalton property was insured for \$500, which will cover the loss fully. McCue had \$750 on the contents of his saloon and his household goods, while the building, owned by Mrs. Carlson, was insured for \$2,500. The building was damaged probably \$50 worth, but how much the smoke damaged McCue's property cannot be told.

Hydrant Cracked By Frost.

As soon as the fire hydrant in front of The Gazette office was opened, a break developed, thought to be in the main, and soon the street or gutters became flooded with water. Superintendent Mitchell, of the water company, at once went to work digging up the hydrant, and in a few hours had a new hydrant in place. It was developed that the frost of last February had cracked the bottom of the hydrant, and as soon as water and pressure was let in, the barrel opened or parted. The hydrant is one of the first put in the drip being on the side, about four inches from the bottom, thus allowing that amount to stand in the bottom. This small quantity of water is what did the mischief last winter. It is feared a number of other hydrants, frozen at the same time, may possibly be in the same condition. They will be examined and tested.

NAME ON THE RAZOR IDENTIFIED WALL

MAN WHO WAS KILLED BY THE CARS IS KNOWN.

Bottles That He Had in His Pocket Contained an Acid with Which He Could Write on Steel, and He Had Marked the Blade in That Manner The Body Shipped East.

The remains of the stranger who was killed last Sunday morning, May 19, by being run over by the cars, in the Northwestern yards, have been identified, and by a very peculiar incident.

Among the effects of the unfortunate man were a number of small bottles, some of which had contained acids. In his pocket was a razor, on the blade of which was the name T. F. Wall, Boston, Mass., which appeared to have been etched with acid by some one other than the manufacturer. Chief of Police Acheson noticed this, and after submitting the bottles and razor to closer inspection found that with the acid in the bottle a person could write upon steel, and after washing off the compound the writing would remain. This, he thought, was the way Wall placed his name on the razor, so he concluded to write to the chief of police in Boston. This he did, giving a minute description of the man, and found that his surmise was correct. T. F. Wall is the name of the unfortunate man, and his home was in Boston. In answer to Chief Acheson's letter, the following telegram was received this morning by Agent McLean, of the American Express Company: "Instruct City Marshal Acheson to place the body of T. F. Wall in outside box, zinc-lined, without coffin. Advise me by wire as to time of starting. Cost advanced. Mark shipment W. L. Lockhart, Boston, Mass."

J. W. BALDWIN, Gen'l. Ag't. The body was exhumed this afternoon and prepared for shipment by Undertaker F. D. Kimball. It will be sent forward this evening or tomorrow morning. No further particulars were learned, but Chief Acheson will probably get a letter telling more about Wall before many days.

SPLIT SWITCH OPEN AT THE WRONG TIME

TWO TRAINS COME TOGETHER AT BELOIT TODAY.

C. & N. W. Passenger That Engineer C. E. Sherwood Pulled Out of Janesville at 7:10 O'clock This Morning, Collided with a Freight Train, and Baggageman Burlingame Is Hurt.

A crash that was followed by the hissing of steam startled Beloit people this morning and if Engineer Sherwood of this city, and Fireman Kelly of Baraboo, had not been lucky they might just as well have been killed as not. As it is two C. & N. W. engines are in the repair shop and a split switch is being replaced with a new one, while Baggageman Burlingame walks with a limp.

Engineer Sherwood pulled the 7:10 C. & N. W. passenger out of Janesville this morning the same as usual. Conductor Ballard had charge of the train and Baggageman Burlingame was in the baggage car. All went well until the Beloit bridge had been crossed and the train rolled along in the rear of the gas works. Here a "split switch" is located and Engineer Sherwood glanced at the "target." It was turned to indicate that the switch was properly turned and the train pulled ahead. The switch was defective, however, and on the engine crossed it, "split" under the wheels and the swiftly moving passenger plunged into a freight train that had been sidetracked at that point to allow Conductor Ballard's train to pass. The collision was a "head end" one and the iron horses met with a crash.

Burlingame Slightly Hurt.

Baggageman Burlingame was at work in his car when the engine met. The shock was violent enough to dislodge a pile of trunks and he was caught by one of the heavy boxes as it fell. He managed to escape however, with but slight injuries although he was hurt enough so that he was obliged to lay off today.

The engine of the freight train was totally demoralized and the passenger engine crippled so that it cannot be used for some time. There was an unusually large number of passengers aboard, but the only injury they received was a severe shaking up. No blame is attached to anyone, as the evidence was, that the switch split when the engine struck it and the cog attachment on the switch target failed to work. The escape was a narrow one, however, and all hands appreciate the fact clearly.

Thirty-five Years a Soldier.
General Wesley C. Merritt, who has been promoted to the rank of major general and placed in command of the department of the Missouri, has been 35

years a soldier. He was born in New York city June 16, 1836, and was graduated from West Point in 1860. He served with distinction through the war, was brevetted a major general and at its close was appointed colonel of the Ninth cavalry. He has been prominent in many Indian campaigns and was for five years superintendent of the West Point Military academy.

A Self Made Man.
Herman H. Kohlsaat, the enterprising Chicagoan who recently paid nearly \$1,000,000 for a controlling interest in the Chicago Times-Herald and Evening Post, was working for \$5 a week 25 years ago. He was a baker's boy then and was such a good baker's boy that he made a fortune in the business when he

grew up. He opened a lunchroom and bakery just at the time when the anarchists' trials were attracting so much attention. Kohlsaat had a natural talent for advertising, and he soon had a number of bakery wagons flying what seemed to be the red flag of anarchy. On the flags were the words, "This is a war for bread." People began talking and wondering, and in two days Kohlsaat and his bread were well advertised in Chicago. He finally bought an interest in the Chicago Inter Ocean and became a successful newspaper man. A year ago he sold out his interest in that paper.

He resides in a neat but plainly furnished brick house in Georgetown and is constantly attended by his faithful daughter. President Tyler was twice married, and the present John Tyler was the issue of his first marriage, to Letitia Christian.

Ex-Consul Waller.
John L. Waller, the ex-American consul to Madagascar, whose imprisonment by the French is a subject of international dispute, was born a slave in Missouri in 1850. When the war began, he was confiscated by Federal troops and was sent to Iowa, where he received a common school education and became a lawyer. He began the practice of his profession in Leavenworth 12 years ago. He soon removed to Topeka, where he started a newspaper and became prominently identified with politics. He was the first colored member of the Kansas Republican state central committee. In February, 1891, he was appointed consul to Tamatave and served until Feb. 28, 1893, when he was relieved by the present consul.

SHOULD GET RICH.
Customer—"You fellows ought to get rich. You make three and four hundred percent on what you sell." Druggist—"What can I serve you with?" Customer—"Give me three two-cent stamps."—New York Herald.

In the Past
A good many jokes have been elaborated—at the expense of druggist—on account of his supposed large profits. The above little clipping from the great New York Herald may be taken as an indication that the press and the public are beginning to see the question in another light. We could write volumes on the subject, but perhaps you would not wade through them. This, however we will assert here:—The drug store is the proper place to get anything in the drug line, and we can prove that our prices are as low and our goods as good as anywhere else in town. And we do not try to prove this by advertising "draws" at cost; and under with some article from somebody else's line of business. Here are two of our own lines suitable for present moments.

ALL FAMILIES WANT THE GAZETTE PRIZE

BABY CONTEST IS GETTING VERY SPIRITED.

Five Hundred Dollars Worth of Building and Loan Association Stock is a Nice Nest Egg For a Three Year Old and the Vote Between Several Contestants is Very Close.

The time is not far distant now, when some Janesville baby will get The Gazette's \$500 prize. The ballot closes June 1, and then the prize will be awarded. Five hundred dollars is a nice sum for a baby to begin life with. Put it out at interest and when the babe becomes the man or woman, enough cash for a start in life is available.

Do not think that you can sit down and wait for that \$500 to come to your home. The ballots are piling up rapidly, for, naturally enough, \$500 is enough to encourage every father and mother in Janesville to strive for that prize for their "ownest own." Competition is getting strong as the time begins to narrow down and in this case the old adage, "everything comes to he who waits" is far from true. It should be "everything comes to he who hustles." The Gazette has been asked many times to publish the vote as it stands, but this would not be fair. It would tell Brown that Jones was leading him, and The Gazette wishes to treat all hands alike. However, the count is close between several contestants up to date, and like everything else, the "early bird," etc., applies.

The Gazette's offer is this: The baby receiving the highest number of votes will be presented with \$500 worth of stock in the Rock County Building, Loan & Savings Association.

It will buy an education.
It will buy a building lot.
It will buy a piano and the lessons necessary to play upon it.
It is more than many people are able to save in a life time.

Of course all the mothers and fathers want it for their babe. How to get it is told below:

The polls opened on May 1st and will remain open until June 1. The baby that receives the most ballots in that time will receive a certificate calling for these five shares of stock. There are no dues to be paid, no assessments to be met, no installments to provide for. The stock stands for \$500 in cash and on its maturity, which will be in nine and one-third years, the money will be ready. The prize is a handsome one—it is well worth winning and the conditions of the ballot are as follows:

From March 1 until June 1, a coupon will be printed in each issue of The Gazette.

Any one, anywhere in any state is entitled to vote as often as they buy a copy of The Janesville Gazette containing the above ballot.

Cut the ballot out (trimming on the dotted lines). Write in the name of your candidate and enclose same in an envelope addressed to Ballot Editor, Gazette, Janesville, Wis.

Only one person can be voted for on one ballot.

The baby who receives the largest number of votes will receive five shares of stock in the Rock County Building & Savings Association, cash value, \$500 at maturity.

The contest will close June 1 at 9 p. m., and the stock will be delivered as soon as the count of votes is completed.

Any non-subscriber who will subscribe for The Gazette and pay in advance will be entitled to the following number of ballots:

New subscriber paid in advance one month, 100 votes.

New subscriber paid in advance two months, 250 votes.

New subscriber paid in advance six months, 900 votes.

New subscriber paid in advance one year, 2,000 votes.

Each new subscriber who pays in advance and casts the number of votes specified is also entitled, of course, to cut coupons from the paper from day to day and vote in the regular manner.

No person will be allowed extra votes for stopping his paper and having it sent to another name at the same address.

In every instance they must be bona fide new subscribers.

No person will be allowed to stop his paper on Monday and start it again Tuesday and claim the premium offered.

No votes can be transferred from one candidate to another after being registered in this office.

Candidates must not be more than three years of age March 1, 1895, and must live in Janesville.

THE BALLOT.

The Publishers of "The Janesville Gazette" will give 5 Shares of stock in the Rock County Building, Loan & Savings Association to the Baby who receives the largest number of ballots.

NOW, THE TIME TO MAKE MONEY

Last month I cleared, after paying all expenses, \$235.38; the month before \$186.86 and have at the same time attended to my regular business. I believe anyone, anywhere, can do as well, as I have not a particularly good location and not much experience. When you have an article that every family wants, it is very easy selling it. It seems strange that a good, cheap dish washer was never before placed on the market. With the Perfection, which sells for \$5 you can wash and dry the dishes for a family in two minutes, without putting the hands in water. As soon as people see the washer work, they want one, and that is why so much money can be made so quickly. For full particulars address The Perfection Mfg. Co., Station O, Englewood, Ill. I feel convinced that every lady or gentleman, in any location can make \$5 to \$10 a day, as every family will very soon have a dish washer. Try it and publish your experience for the benefit of others. **ALICE O.**

ABOUT ICEMAKING.

The Plate Process Said to Render Ice Free from Microbes.

A very novel combination of interests is now being consummated in some of the western cities in the union of plants built for the production of light with plants for the manufacture of ice, the same companies intending to operate the two plants as a joint enterprise. This idea has also taken root near at home, and the plans for a gas and ice plant in a near-by city are already in an advanced state of preparation. This new development of the artificial ice business has been brought about largely by the improvements made in the process of its manufacture, which have not only materially improved the quality of the product, but reduced its cost to a point which seems to assure a very large profit even at a price much below that possible to those who get their supply from nature's stock. It is claimed that the "plate" process enables the product to be made entirely free from impurity of any sort, freezing from a plate outward, tending to expel all the impurities which by the "can" process of freezing from the four sides of the cake, are lodged in the center of the block. The "plate" process obviates also all of the necessity for raising the temperature of the water before it is frozen and the best results so far gained by the "plate" process indicate a product of ten and five-eighths tons of ice from a single ton of coal where artificial heat is demanded in supplying power for the manufacture. In the "can" process the results are said to have never exceeded seven tons of ice to a ton of coal and the average product has been much less than this proportion. The "plate" process necessitates a heavier investment in the original plant, but gives a higher percentage of return upon its cost when once in operation.

Bankrupt Shoe Sale.

THE secret of Success lies not in selling Cheap Shoes. We for one don't want any trash in the house, but in selling Good Shoes cheap. No wonder our store grows more popular every day. No wonder we grow in the public confidence every hour. We don't believe as Barnum did, and evidently as many others still do, that the people want to be humbugged. No fairy tale advertisement. Nothing but strictly legitimate business. There's no question about our being successful. Hundreds of thrifty buyers have taken advantage of our sale of that magnificent North Stock. Not a pair but what we are selling at half the regular retail price. Competitors are lost sight of in our slaughter. We set the pace. We put the values below the cost of production. We own the goods mighty cheap
